# It's All About Delivering Meaningful, Relevant, Solutions

With over 30 years of extensive corporate and entrepreneurial experience, Robert Stevenson understands what it takes to succeed. He teaches companies how to deal with risk, competition, and the ever-changing business environment.

Robert helps prepare companies for the 21st century. With a powerful blend of experience, research, case studies and competitor perspectives, Robert's original insights help organizations, business leaders and associates understand how to unleash their future potential.

“Your dynamic message and overall aura were phenomenal. You captured the audience's attention immediately and the standing ovation and audience engagement were a testament to your lasting impression.”

Energy, power, content, and tangible solutions are all considerations in picking a speaker, but what determines whether a speaker hits a *home run* with your audience is much more than just those components.

A great speaker doesn't just tell their story, they take the time and make the effort to understand YOUR story and unique needs.

## What makes Robert Stevenson different from other business speakers ... he isn't locked in to one topic.

Robert leads his clients through a research process intended to identify the most relevant issues affecting their business and then designs a customized program specific to those findings.

Once the interviews are done and his research is complete, Robert will be able to weave together a truly relevant, thought-provoking, energetic and humorous keynote that not only provides tangible, useable solutions for your audience, but he also sets the tone for your entire event.

**Yamaha Motor Corporation** - “I really appreciate how you researched our business in advance to tailor your materials to our needs. Your words and stories ... really ‘hit home’ with our dealers.”
